# PRESS RELEASE

Thursday 7 September 2017

## WOMEN SCULPTORS INITIATIVE LAUNCHED

The Lorne Sculpture Biennale has launched a new initiative aimed at supporting female sculptors.

Lara Nicholls, Curator, Lorne Sculpture Biennale commented, “Many women sculptors struggle with equitable access to capital in what is a very expensive field of practice and we would like to help even out the playing field”.

The Women Sculptors Initiative was launched on the Australia Council Cultural Fund site to raise funds in support of females participating in the 2018 Biennale.

“The initiative will focus the public’s attention on the achievements female sculptors make and help achieve gender parity in the 2018 Biennale” Ms Nicholls said.

Funds raised will assist female artists in creating and exhibiting ambitious work in 2018 at the Biennale, which is one of Australia’s leading public arts events.

**Donations can be made at [australianculturalfund.org.au/project](http://australianculturalfund.org.au/project)**
